- STEM: Mrs. Giroux brought craft sticks and clothespins to build what the kids wanted, but then had the kids test to see if what they built would stand.
- P.E. with Mr. Giroux gave the kids pool noodles and told them to pretend the noodles were horses to practice galloping around the room. After, we worked on throwing a ball. We sat in a big circle and we each took a turn throwing the ball in the air and catching it. If you wanted you could throw it in the air and then clap before you caught it.
